

Implementation

Putting plans into practice. ✓

Building relationships and shared stories. ✓

Focusing, learning, and being adaptive. ✓

Generating useful findings. ✓

Let's think differently about implementation..

PROGRAMME

ECOSYSTEM

Implementing in ecosystems

ANIMATE

Who or what matters in making this work?

How can I connect the team?

AMPLIFY

Focus on evidenced 'success factors'.

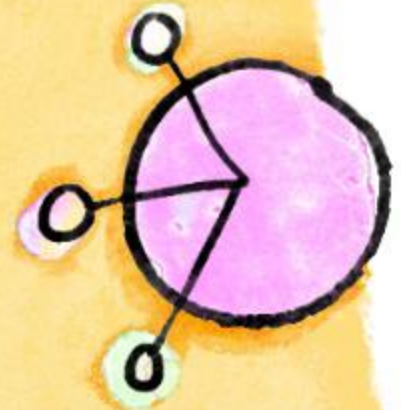

Create a shared story by aligning interests.

MULTIPLY

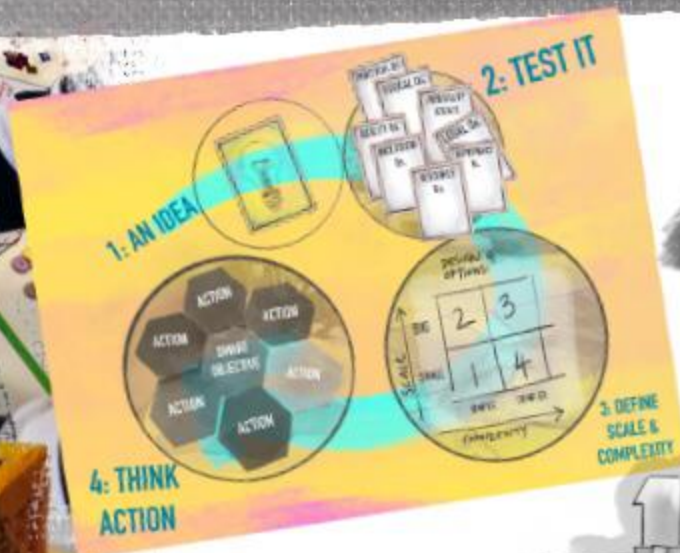

Document creatively.

Share through tools.

What will it look like for you?

WHAT AFFECTS OUR HEALTH?

Welcome to the research team! We are going to work together to understand something that matters to YOU about your lifestyle, your community and your health. That leaves us with loads of choices...so how about some prompts, and some materials!

3 WAYS TO WORK

BY YOURSELF

task groups?

IN SMALLER GROUPS

workshops?

AS A WHOLE GROUP (ONLINE + IN PERSON).

YouTube materials?

Phone meetings?

SOME STEPS IN OUR JOURNEY

INTRODUCTIONS

DECIDING TOPICS

DESIGNING QUESTIONS

CREATING METHODS

by (a) methods (see below)

OPTIONS

DESCRIBE A SITUATION

AGREE SOMETHING

MODEL

CREATE

+...

PRIORITISE THINGS

REVIEW SOMETHING

CHOOSE

SOME THINGS TO USE

How about we create some Resource Boxes or Ideas Toolkit?

2 WHAT'S HAPPENING?

1 WHAT'S IMPORTANT?

3 THE STORY - Tell us about this situation.

4 REFLECTIONS
