

Involving marginalised groups in research

November 23rd 2022

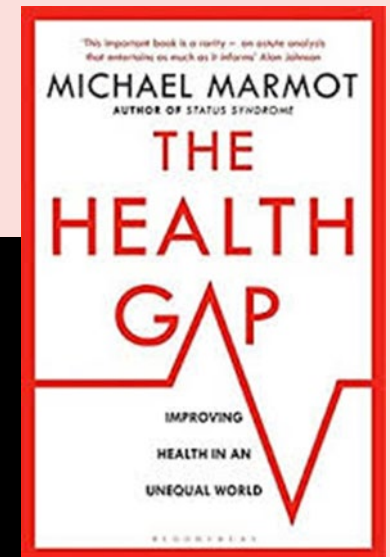

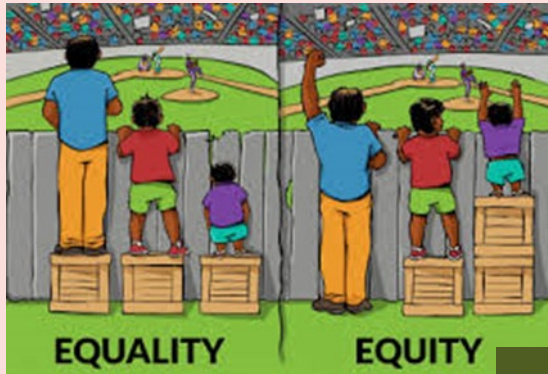

Public Involvement & Community Engagement

Definitions

Public involvement in research is defined as research being carried out **‘with’** or **‘by’** members of the public rather than **‘to’**, **‘about’** or **‘for’** them, and uses the following terms to distinguish between the different activities:

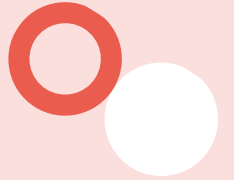

- **Involvement** – where members of the public are actively involved in research projects and in research organisations.
- **Participation** – where people take part in a research study.
- **Engagement** – where information and knowledge about research is provided and disseminated. (www.invo.org.uk)

PICE is a social justice issue

What have we done so far?

- Created a Public Advisory Network
- Created a Young Public Advisory Network
- PICE activity in ARC Governance: Stakeholder Board, Executive Board, Implementation Advisory Group, Open Funding Competition, Website Development Group
- Identified a PICE Lead for each of the ARC Research Themes
- Developing PICE training resources (co-production, peer research, EDI etc.) and regular PICE Drop-in sessions
- Creating sustainable models of engaging with individuals and communities that are often excluded (Learning Disability, Culturally Diverse Communities, BSL Users, digital poverty, care home residents)
- Developing a model for capturing and evaluating evidence of public involvement & community engagement in governance and in the research projects – Dialogue & Change Award & links to the Logic Model as part of the Implementation Strategy

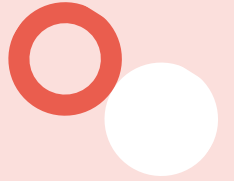

What is happening in the region?

- North East & North Cumbria VCSE Health and Wellbeing Research Partnerships Co-ordinator
- Creating Connections Network – developing areas of expertise
- Community Engagement Toolkit - [Community Engagement Toolkit \(rdsresources.org.uk\)](https://rdsresources.org.uk)

- Co-produced NENC regional Code of Practice

Joint ARC/Fuse Peer Research Event January 2023. Developing a NENC Peer Research Community of Practice
