Wakefield Mental Health Navigator Scheme

 Wakefield District Housing and Wakefield CCG jointly commissioned 3 Mental Health Navigators in 2015

- NHS employed but embedded in WDH
- Supporting tenants to access mental health and other services
 - Preventing tenancy breakdown
- Previous report suggests positive impacts
- Further evaluation needed

Aims and objectives

AIM: to conduct a robust, theory informed, evaluation of the Wakefield MHN scheme, whilst exploring potential barriers and facilitators to adoption in novel settings, using that evidence to inform an implementation toolkit to support roll-out in other sites.

- 1) Characteristics, services received and outcomes
- 2) Potential mechanisms of impact
- 3) Changes in secondary care healthcare resource use
- 4) Costs and consequences
- 5) Acceptability, feasibility and wider delivery context
- 6) Implementation toolkit

6

Evaluation methods

- Routine outcome monitoring data
 - Descriptive analysis
 - Casefile audit
- Qualitative comparative analysis
- Hospital episode statistics (HES)
- Area-based analysis (interrupted time series)
- Data from W1-3 and costs
- Cost consequence analysis + broader assessment
 - Qualitative interviews with stakeholders
- Normalisation Process theory
 - Qualitative interviews with potential new adopter
 - Implementation advisory group

Emerging learning

- Approvals process where data spans NHS and non-NHS
- Challenges of routinely collected data
- Emerging theory of change
- Service developments
- Insights from potential new adopters
- Scoping review
