

CHILDREN & YOUNG PEOPLE'S VIEWS OF BARRIERS TO ACCESSING PAEDIATRIC CRITICAL CARE & SURGICAL SERVICES

Participate in our research

WHO ARE WE & WHAT ARE WE DOING?

We're university researchers wanting to identify and understand the challenges and barriers to accessing children's critical care and surgical services across the North East and North Cumbria.

HAVE YOU EVER HAD AN OVERNIGHT STAY ON A CHILDREN'S WARD?

Our research is open to all young people aged 12-16 years who have attended paediatric critical care or surgical services for all conditions in the past six months across the North East & North Cumbria.

All participation in the study is voluntary.

WHAT DO I HAVE TO DO IF I TAKE PART?

If you agree to take part, we'll invite you to an interview or group activities to share your views on the barriers to accessing paediatric critical care or surgery.

This can be online or face-to-face (whichever you prefer) with a researcher.

WHAT'S IN IT FOR YOU?

- You'll receive a £20 shopping voucher as a thank you.
- You'll have your voice heard.
- You'll help to improve access to paediatric critical care & surgery services in our region.
- We'll send you a summary of the study findings if you want.

WHAT NEXT?

If you'd like to take part in the study, please let the researcher Catherine know ASAP on 07436784832 or at Catherine.El-Zerbi@newcastle.ac.uk. Your details will not be shared with any third party and will only be used to contact you about this project.
